I am Shepard Smith in New York and you're looking live San Bernardino California where a mass shooting event is now underway. Police confirm multiple people shot and multiple fatalities. There are local news reports of at least 12 people dead, though Fox news channel cannot confirm that. We know as many as 20 people have been shot and they are taking the victims to area hospitals. The witnesses have described the perpetrators as one to three men. Most often, witnesses say, there are 3 perpetrators, but in some cases, they may have just seen one. Multiple reports of the perpetrators being described as white men wearing mask and body armor. This all began just about 45 minutes ago. There are three buildings here. One of them has been evacuated, according to authorities. Buildings 2 and 3, it's still underway. The Sheriff's department has ordered all emergency personnel to evacuate those 2 buildings and they now have what appears to be an active shooter situation and a standoff with SWAT teams underway now.

"I am a sergeant with the San Bernardino police department. Can you step up close please? You gotta step very close. Thank you. How's that? OK, my name is Vicky Serbantas. I am a sergeant with the San Bernardino police department. Um just an update for you. The number of wounded has increased to 17 at this point, the number of fatalities has remained at 14. We have a telephone number that we would like to provide for people that want to be united with their family that was possibly at the regional, inland regional center today. And that telephone number is 800-637-6653. We are asking that anybody that has family that was at this facility, um, call tis telephone number first and the person will advise you where you need to go in order to talk somebody get reunited with your families."

If you look at the back left passenger side of this driver side of this vehicle, they just pulled what appears to be a deceased man out of the back seat. From the way they pulled this person, it appears that this was a person who was in the back of this vehicle. And closer look inside the vehicle, if there is another person in there, now we don't see that person and this just in from the L.A. Times. the L.A. Time is quoting a federal official who says the feds believe a man was in this meeting when the shooting began. A man was in the meeting, angrily left the meeting, then returned with "one or two others" and started shooting. So according to reporting at that time, a federal official says one of the shooters was actually in this meeting, left and came back with others in this what is now clearly a very organized event. One person pulled out of the back of that SUV now, another person dead on the streets. And there are multiple reports in and around Loa Angeles, Brat, including that of NBC 4, the NBC news owned and operated station that in fact, one suspect is still on loose. Fox news canlt confirm that and we don't at this moment have reason to believe that. But I should tell you that NBC is reporting that and we will see.
